DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1, 11, 13, 37, and 41-45 are rejected under 35 U.S.C. 102(e) as being anticipated by Ouacha, U.S. Patent # 6,900,695 B2.

Fig. 7 of Ouacha discloses an active splitter comprising: input1, input2 can be read as a received input signal wherein input1 can be read as a first input signal; input2 can be read as a second input signal; transistors T1-Tn and T'1-T'n can be read as a plurality of active circuits wherein transistors T1-Tn can be read as a plurality of first active circuits and transistors T'1-T'n can be read as a plurality of second active circuits; controller to produce control voltage VC to switches ST1-STn and control voltage VC' to switches ST'1-ST'n can be read as a controller.

Allowable Subject Matter

Claims 2-10, 12, 14-30, 38, and 46-50 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claims 31-36, 39, and 40 are allowed.
